Science and religion share plenty of middle ground, according to two priests who penned a book called "Would You Baptize an Extraterrestrial?" Pope Francis first posed the alien question in May during a sermon on acceptance in which he said the Church should not be so judgmental. "If—for example—tomorrow an expedition of Martians came, and some of them came to us, here... Martians, right? Green, with that long nose and big ears, just like children paint them... And one says, 'But I want to be baptized!' What would happen?" he asked parishioners.
